

A VISIT TO THE DENTIST

WS4 Dental Care is a Autism Friendly Space

A Social Narrative by

People everywhere visit the dentist to keep their teeth clean and healthy

My family goes to the dentist. I can go to the dentist too.

When we go to WS4 Dental Care,
we will first check in at the reception desk.

I stay with my family and tell the receptionist my
name

After we check in, I will have a
seat in the waiting room and
wait for my turn

The nurse will then call my name to take me in to see the dentist

I will then meet the Dentist Yusuf who will say hello and ask me to sit in the big chair

The nurse will ask me to put on some special
'sunglasses'

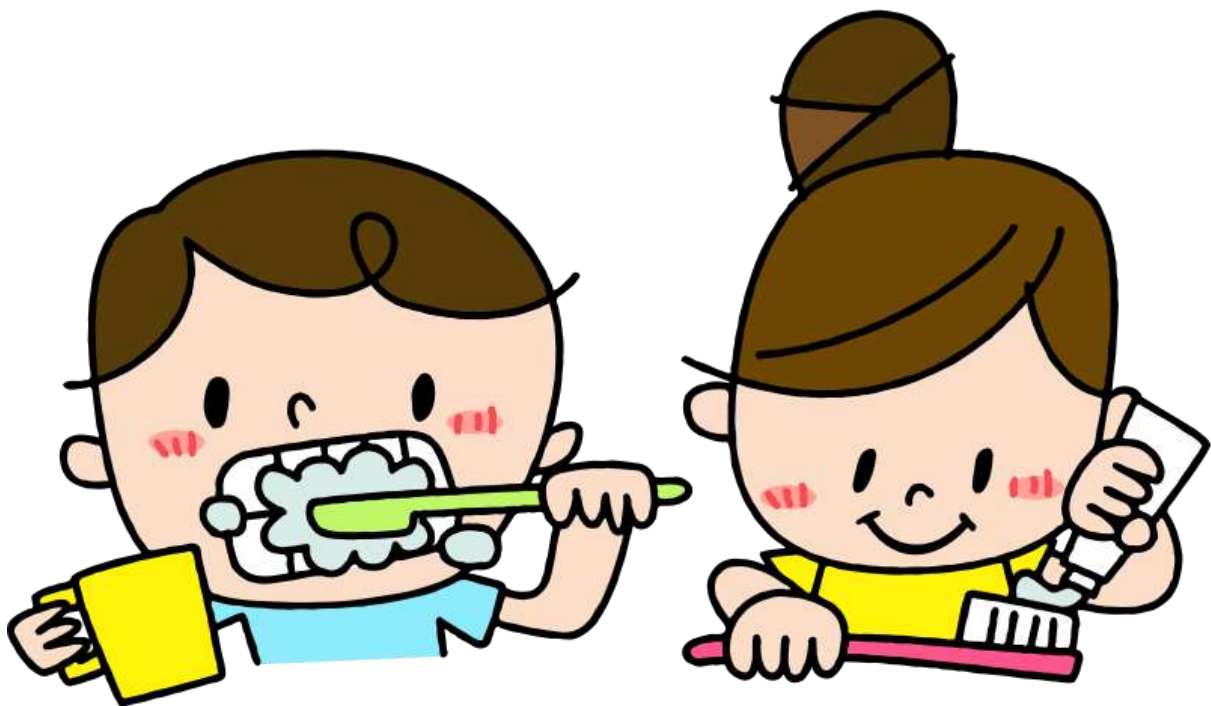

Yusuf the dentist will look inside my mouth
and look at my teeth I will try to keep my
mouth open wide so he can get a good look
(Just like a lion)

If I get nervous then my mom or dad can hold my hand or I can say stop

After the dentist is finished checking my teeth he will tell me the best way to clean my teeth

Then I can go back to reception

I will get stickers

We will then make an appointment to come back in 6 months to check my teeth

Going to the dentist is fun
